Supplementary Online Material

Figure 1. Other views of specimen BRLSI.M3941 from the Toarcian of Strawberry Bank, Somerset.

Figure 2. Upper surface of BRLSI.M3941 from the Toarcian of Strawberry Bank, Somerset, showing locations of measured *Pseudomytiloides dubius* specimens and *Toarcolepas mutans* specimens shown in Fig. 4 in Little et al 2023.

Figure 3. Upper surface image of BRLSI.M3941 from the Toarcian of Strawberry Bank, Somerset (50% transparency) overlain with X-ray computed tomographic reconstruction (36% transparency).

Figure 4. Box-and-whisker plot showing minimum, maximum, sample median, and first and third quartiles for measured *Pseudomytiloides dubius* specimens. Data from SOM Table 1 (whole valves only).

Table 1. Measurements for bivalves numbered in SOM Figure 2 available at http://app.pan.pl/SOM/app68-Little_etal_SOM/Table_1.xlsx

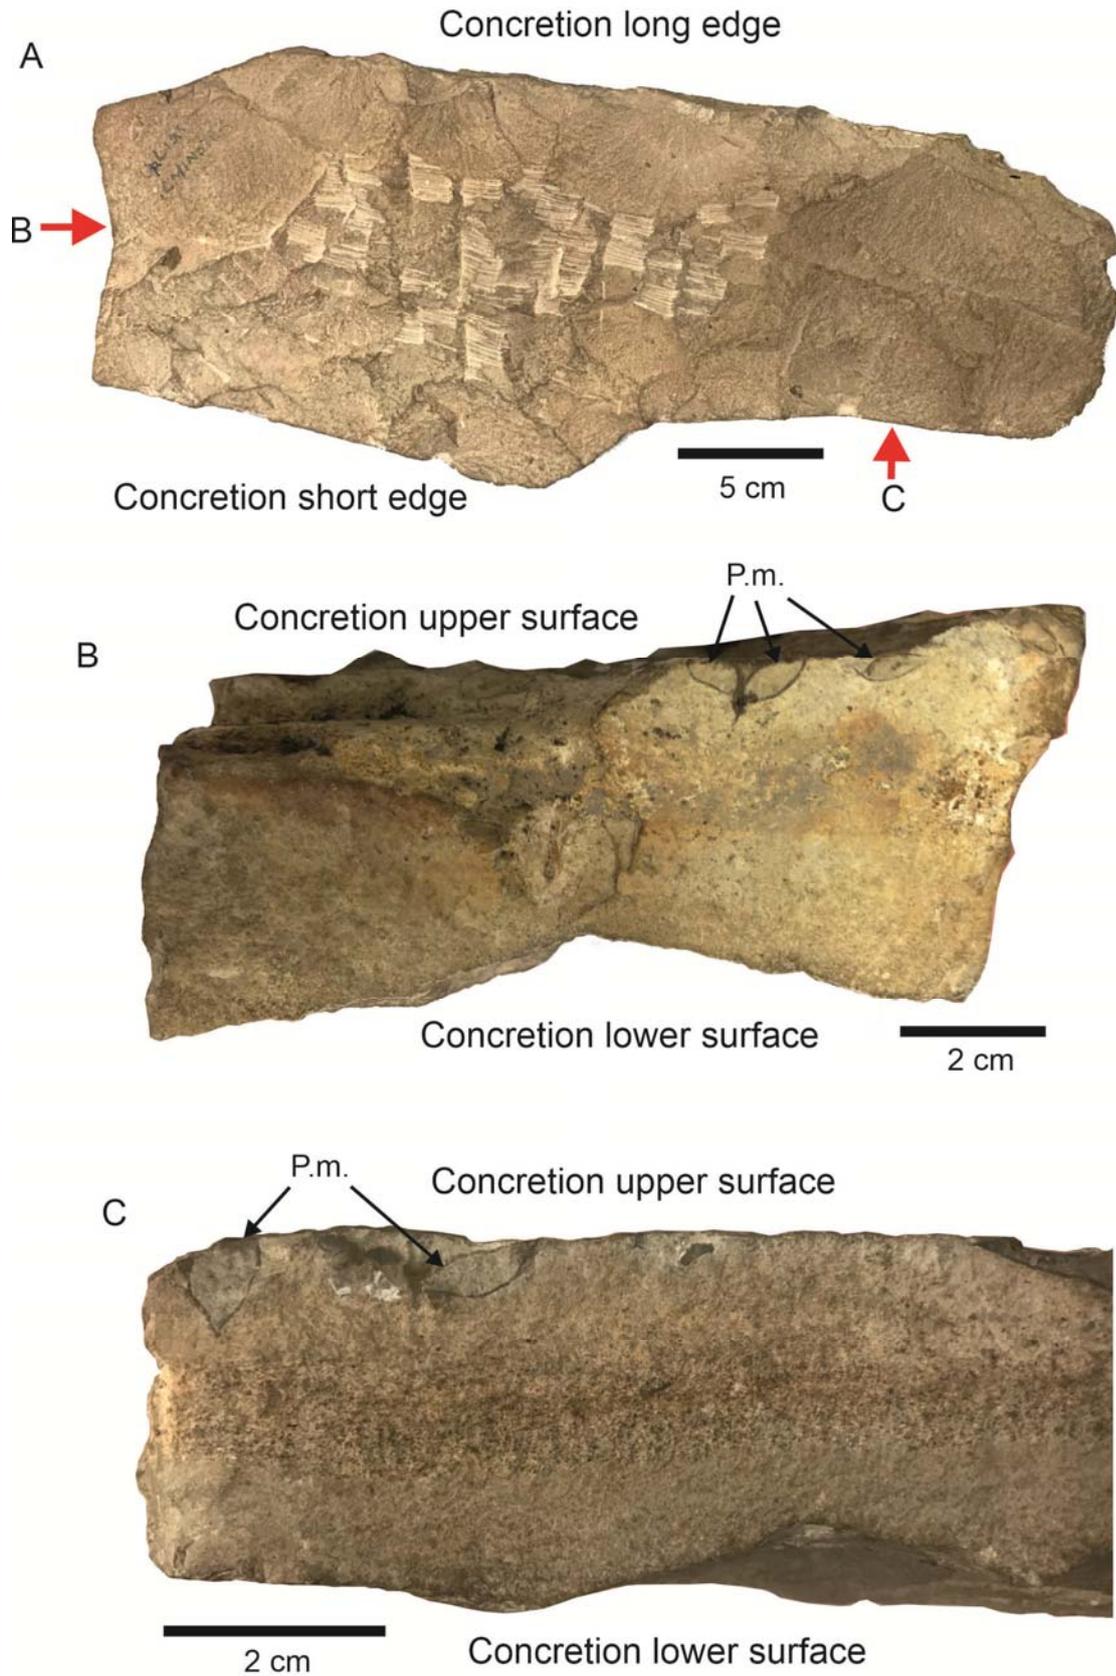

Figure 1. Other views of specimen BRLSI.M3941 from the Toarcian of Strawberry Bank, Somerset. A = lower surface; B = edge of concretion marked in A by red arrow; C = edge of concretion marked in A by red arrow. P.m. = articulated *Pseudomytiloides dubius* specimens.

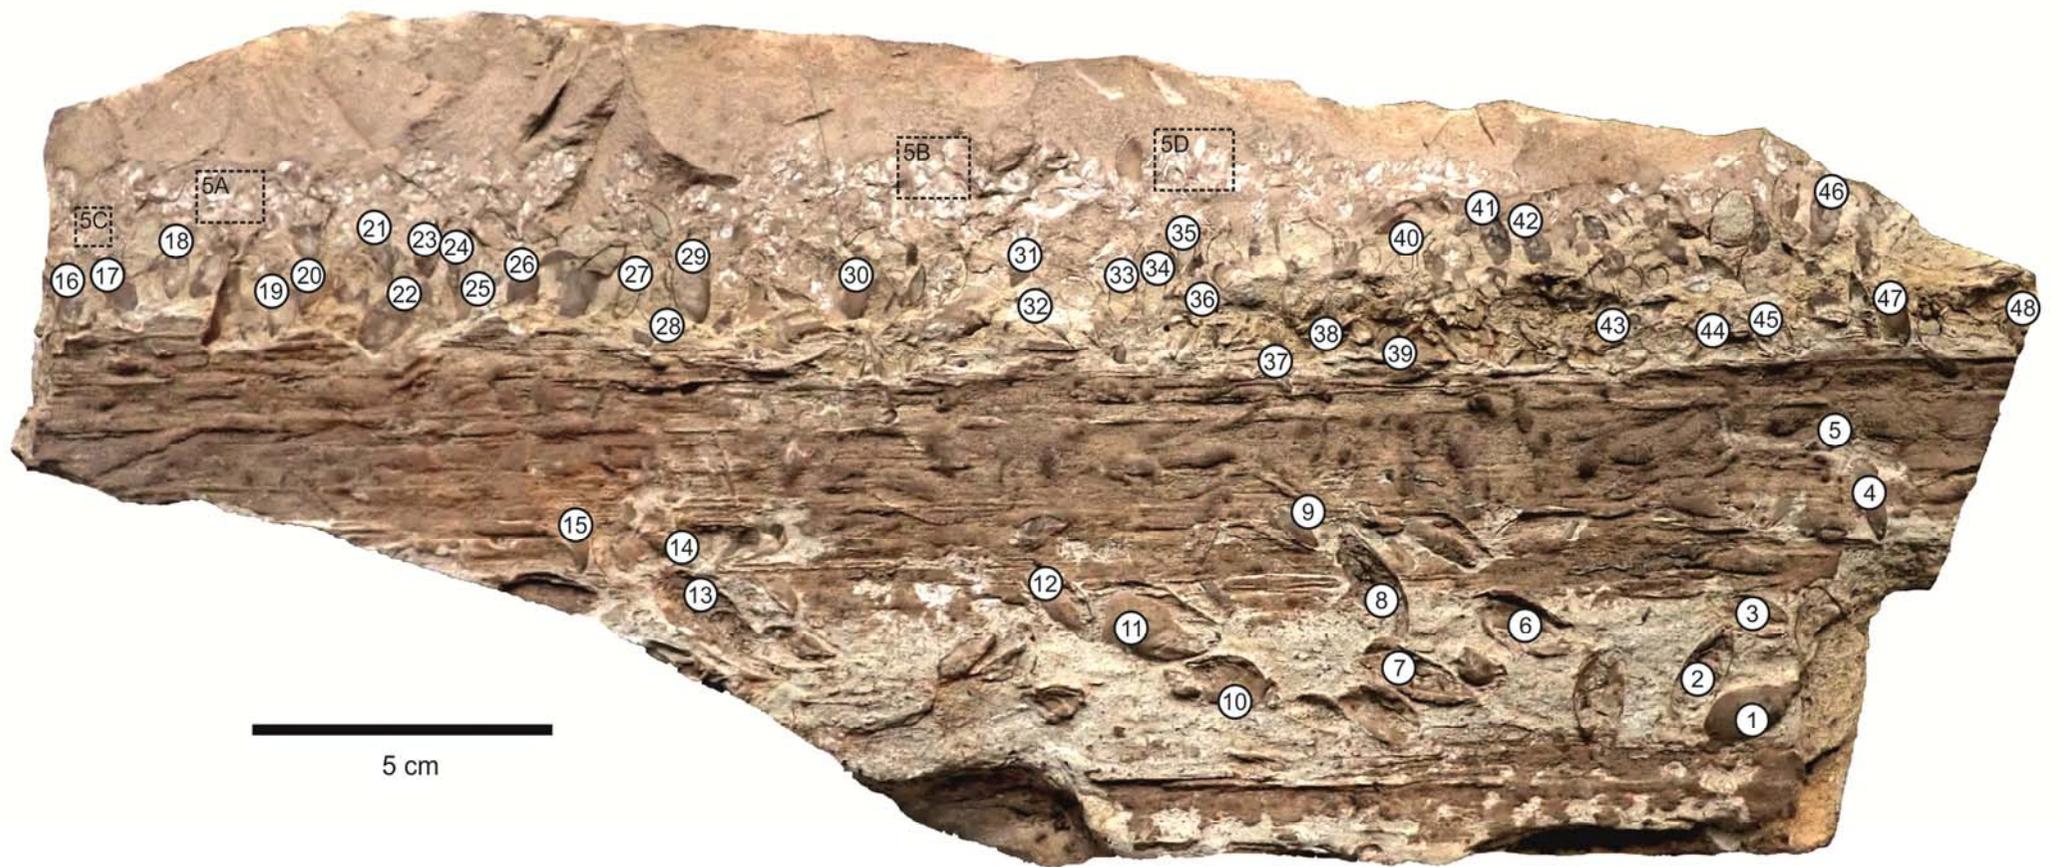

Figure 2. Upper surface of BRLSI.M3941 from the Toarcian of Strawberry Bank, Somerset, showing locations of measured *Pseudomytiloides dubius* specimens and *Toarcolepas mutans* specimens shown in Figs. 3, 5 in Little et al. 2023.

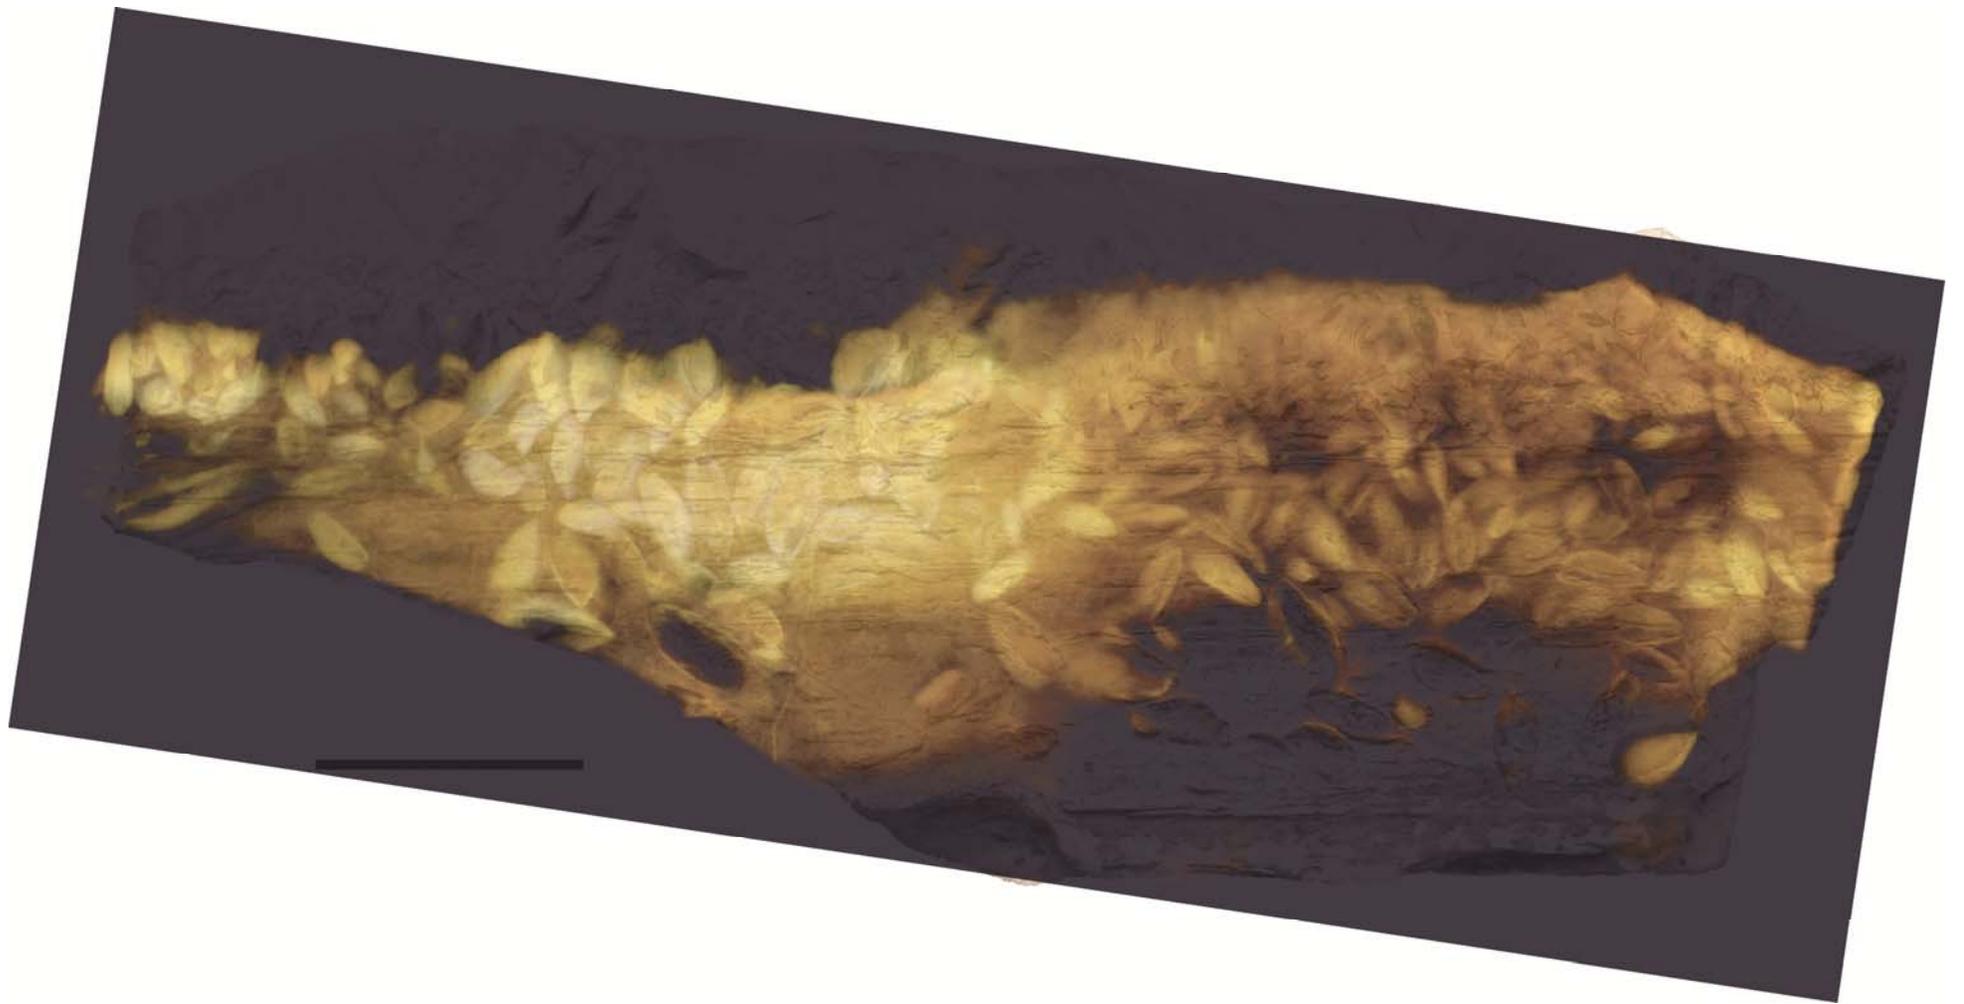

Figure 3. Upper surface image of BRLSI.M3941 from the Toarcian of Strawberry Bank, Somerset (50% transparency) overlain with X-ray computed tomographic reconstruction (36% transparency).

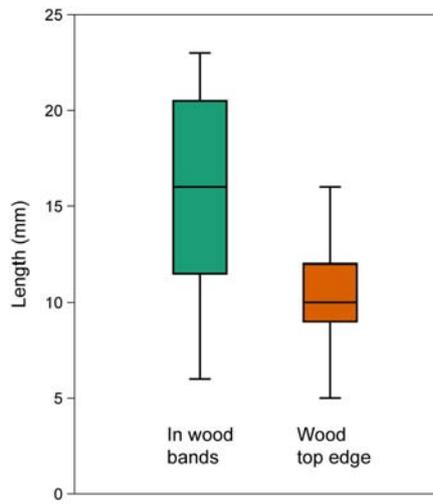

Figure 4. Box-and-whisker plot showing minimum, maximum, sample median, and first and third quartiles for measured *Pseudomytiloides dubius* specimens. Data from SOM Table 1 (whole valves only).
