

Issue 1 (published March 2016)

Editors' choice

Christian Klug, Kenneth De Baets, and Dieter Korn

Exploring the limits of morphospace: Ontogeny and ecology of late Viséan ammonoids from the Tafilalt, Morocco 1–14

Hirotsugu Mori, Patrick S. Druckenmiller, and Gregory M. Erickson

A new Arctic hadrosaurid from the Prince Creek Formation (lower Maastrichtian) of northern Alaska 15–32

Articles

Steve Kershaw and Mari-Ann Mõtus

Palaeoecology of corals and stromatoporoids in a late Silurian biostrome in Estonia 33–50

Julien Denayer

Rugose corals across the Devonian–Carboniferous boundary in NW Turkey 51–70

Zhaoying Guan, Jakub Prokop, Patrick Roques, Jean Lapeyrie, and André Nel

Revision of the enigmatic family Anthracoptilidae enlightens the evolution of Palaeozoic stem-dictyopterans 71–87

Juanita Rodriguez, Cecilia Waichert, Carol D. Von Dohlen, George Poinar Jr., and James P. Pitts

Eocene and not Cretaceous origin of spider wasps: Fossil evidence from amber 89–96

Kimberly G. Beck, Rodrigo Soler-Gijón, Jesse R. Carlucci, and Ray E. Willis

Morphology and histology of dorsal spines of the xenacanthid shark *Orthacanthus platypternus* from the Lower Permian of Texas, USA: Palaeobiological and palaeoenvironmental implications 97–117

Emanuel Tschopp, Oliver Wings, Thomas Frauenfelder, and Bruce M. Rothschild

Pathological phalanges in a camarasaurid sauropod dinosaur and implications on behaviour 125–134

Michael Stein, Michael Archer, and Suzanne J. Hand

Dwarfism and feeding behaviours in Oligo-Miocene crocodiles from Riversleigh, northwestern Queensland, Australia 135–142

Philip J. Currie, Gregory F. Funston, and Halszka Osmólska

New specimens of the crested theropod dinosaur *Elmisaurus rarus* from Mongolia 143–157

Gregory F. Funston, Philip J. Currie, and Michael E. Burns

New elmsaurine specimens from North America and their relationship to the Mongolian *Elmisaurus rarus* 159–173

Estelle Bourdon, Cecile Mourer-Chauviré, and Yves Laurent

Early Eocene birds from La Borie, southern France 175–190

Leonardo Kerber, Francisco Ricardo Negri, Ana Maria Ribeiro, Maria Guiomar Vucetich, and Jonas Pereira de Souza-Filho

Late Miocene potamarchine rodents from southwestern Amazonia, Brazil—with description of new taxa 191–203

Adriana Oliver and Pablo Peláez-Campomanes

Miocene evolution of the rodent *Megacricetodon* in Europe and its palaeobiogeographical implications 211–219

Gabriele Sansalone, Tassos Kotsakis, and Paolo Piras

New systematic insights about Plio-Pleistocene moles from Poland 221–229

Kent Smith, Nicholas Czaplewski, and Richard L. Cifelli

Middle Miocene carnivorans from the Monarch Mill Formation, Nevada 231–252

Brief reports

Pavel P. Skutschas

A relict stem salamander: Evidence from the Early Cretaceous of Siberia 519–123

Mikhail P. Tiunov, Fedor N. Golenishchev, and Leonid L. Voyta

The first finding of *Miomys* in the Russian Far East 205–210

Discussions

Anthony R. Fiorillo: Comment on “A new Arctic hadrosaurid from the Prince Creek Formation (lower Maastrichtian) of northern Alaska” by Hirotsugu Mori, Patrick S. Druckenmiller, and Gregory M. Erickson 158

Hirotsugu Mori, Patrick S. Druckenmiller, and Gregory M. Erickson: Preservation of Arctic dinosaur remains from the Prince Creek Formation (Alaska, USA): A reply to Fiorillo (2016) 174

Issue 2 (published June 2016)

Editors' choice
