

## **Blastogeny and individual variations in tetracoral colonies from the Devonian of Poland**

Maria Rózkowska

*Acta Palaeontologica Polonica* 05 (1), 1960: 3-64

In order to investigate the process of blastogeny and individual variations in tetracoral colonies, comparative studies have been made of the following forms from the Middle and Upper Devonian strata of Poland: *Disphyllum geinitzi* L. & S., *Hexagonaria taxa* Gürich, *Hexagonaria laxa jurkowicensis* n. subsp., *Peneckiella minor kunthi* (Dames) and *Sudetia lateseptata* n. gen., n. sp.
