

## Some decapod crustaceans from the Lower Cretaceous of Poland and England

J.S.H. Collins

*Acta Palaeontologica Polonica* 14 (4), 1969: 565-572

A new species of macrurous crustacean, *Glypheopsis sanctaegrucis*, is represented by two subspecies. The nominal subspecies is described from the Upper Albian of Poland. The other new subspecies, *Glypheopsis sanctaegrucis woodsi*, is described from the Upper Greensand of England. The species *Hoploparia longimana* (G. B. Sowerby) and *Hoploparia* cf. *minima* Tribolet are recorded for the first time from the Upper Valanginian of Poland.
