

## Bases of Upper Cretaceous octocorals from Poland

Jerzy Małecki

*Acta Palaeontologica Polonica* 27 (1-4), 1982: 65-75

Bases of octocorals, mostly epifaunal, from Cretaceous deposits of the environs of Cracow, Poland have been classified according to parataxonomic criteria. A form-genus *Octobas* is has been proposed writer for eleven forms-species of octocorals.

**Key words:** Octocorallia, parataxonomy, Upper Cretaceous, Poland.
