

***Ophryotrocha* sp., the first report of a jawed polychaete from the Cretaceous of Skåne, Sweden**

Mats Eriksson and Sofie Lindström

Acta Palaeontologica Polonica 45 (3), 2000: 311-315

An incomplete jaw apparatus of a Cretaceous polychaete congeneric with the Recent *Ophryotrocha*, was recovered in a palynological sample from Skåne, southern Sweden. This is the first record of a jawed polychaete from the Cretaceous of Sweden.
