

***Monoceratina* Roth (Ostracoda) from the Upper Cretaceous and Lower Paleocene of north and central Poland**

Janina Szczechura

Acta Palaeontologica Polonica 09 (3), 1964: 357-406

17 species of the ostracod genus *Monoceratina* Roth (including 9 new species and 1 new subspecies) are described. The new subfamily Monoceratininae, placed tentatively in the family Bythocytheridae, is erected, and taxonomic features of the genus *Monoceratina* are discussed. The variability, ontogenetic development and the geographical distribution of the described species are studied.
