

Nature of ornamentation in megaspores of the genus *Verrutriletes*

Marta Waksmundzka

Acta Palaeontologica Polonica 30 (1-2), 1985: 93-98

The study on the structure of sporodermis and elements of ornamentation in megaspores of the genus *Verrutriletes* (Van der Hammen 1954) Potonié 1956 revealed that the verrucae are part of the perine sculpture.

Key words: megaspores , *Verrutriletes*, morphology, internal wall structure, structure of ornamentation elements.
