

## ***Porolepis* (Crossopterygii) from the Lower Devonian of the Holy Cross Mountains**

Julian Kulczycki

*Acta Palaeontologica Polonica* 05 (1), 1960: 65-104

On the basis of the here described remains a new interpretation is given of the structure of the anterior part of the head in *Porolepis*. The writer postulates also the lack of direct relationship between holoptychioids (Porolepiformes) and tetrapods.
