

On some rare genera of the Carboniferous Cyrtosymbolinae Hupe, 1953 (Trilobita)

Halszka Osmólska

Acta Palaeontologica Polonica 15 (1), 1970: 115-131

Five Lower Carboniferous species of Cyrtosymbolinae Hupe, 1953 are redescribed and one new is established. They come from the territory of Eurasia and represent two rare cyrtosymbolinid genera: *Weania* Campbell, 1963 and *Griffithidella* Hessler, 1965; one of them is tentatively assigned to the genus *Phillibole* Richter & Richter, 1937.
